Saputo

CONDITION BASED MAINTENANCE TECHNICIAN

Davidstow
Full Time Permanent

YOU'LL MAKE CONTRIBUTIONS THAT MATTER BY...

- Supporting the delivery of the asset care strategy on site
- Formalising site Condition Based Maintenance (CBM) and process improvement to increase the value of maintenance activities
- Conducting condition based monitoring activities to an agreed schedule to ensure the efficiency and safety of installed assets and other equipment with the focus on supporting internal customers to achieve planned production
- Supporting the implementation and improvement of installed asset base performance monitoring program including on-site data collection, analysis and recommendations for corrective action
- Conducting field measurements of vibration, acoustic, thermographic and oil sample data and analysis, related to installed asset base, using different data acquisition hardware and software applications

YOU'RE BEST SUITED FOR THE ROLE IF YOU ARE...

- A time served Apprentice with a City & Guilds or HNC
- Someone who has had Vibration Analysis Training: ISO Category II or Equivalent
- An engineer with at least a year of work experience in machinery vibration analysis
- Proficient in condition, vibration, acoustic and thermal based maintenance techniques including analysis and interpretation of gathered data

WE SUPPORT AND CARE FOR OUR EMPLOYEES BY PROVIDING YOU WITH...

- 25 Holidays + 8 bank holidays
- Site bonus scheme paid QUARTERLY
- A Health Cash Plan
- Generous employer pension contributions
- Free, onsite parking
- Discounted branded products
- A subsidised staff restaurant
- Life Assurance
- Development opportunities
- Long service which is recognised every 5 years
- My Staff shop - access to exclusive benefits, free advice and savings - providing great discounts from thousands of the UKs largest retailers & service providers

We support employment equity. Saputo strives to embed diversity and inclusion in its operations and invites candidates from all horizons to join our team.
