

OUR BEST IS MADE OF **YOURS**

Saputo

TEAM LEAD, CONTROLS

Davidstow
Full Time, Permanent

YOU'LL MAKE CONTRIBUTIONS THAT MATTER BY...

- Being responsible for the functional management and leadership, development and implementation of the power, control and cyber security system activities and team associated with power and controls engineering (maintenance and capital delivery as well as plant operations).
- Improving site electrical power, control & automation, and cyber security system performance through the development of its systems, processes and procedures.
- Sharing best practice and knowledge to reinforce and develop the electrical power, control & automation, and cyber security agenda.
- Using the site data (Operations and Engineering) to drive improvements in H&S, Quality, Cost, Performance and Delivery. Use of computerized maintenance management systems (CMMS), energy management systems, SCADAs and Building Management Systems (BMS)

YOU'RE BEST SUITED FOR THE ROLE IF YOU HAVE...

- Experience in coaching, mentoring and training individuals on power, control and cybersecurity related systems.
- The ability to build and develop a strong team and strong working relationships with all stakeholders (Internal and corporate as well as contractors and suppliers).
- At least 5 years' experience working in a role working within the field of electrical/electronic engineering with controls and automation exposure.
- Time served apprenticeship, HNC, HND or degree.
- The ideal candidate would have extensive understanding of Schneider equipment and software i.e. AVEVA Wonderware, BMS, Energy Monitoring System (EMS), Telemecanique etc. and Rockwell Automation range of equipment i.e. SLC, Contrologix, RSView, Startix, Powerflex, Asset Centre etc but we will consider equivalent applications
